

THE BEAUTY OF NATURAL STONE WITHOUT THE MAINTENANCE OR COST

Centrelle is a unique composite material developed to meet the demand for a permanent and maintenance-free option to natural stone & granite in wet-wall bathroom applications.

Sampled from actual stone & granite slabs, Centrelle provides a flawless, high-resolution visual reproduction while retaining the longevity and maintenance-free properties demanded by regular bath usage.

Although Centrelle has the appearance of natural materials, it is completely impervious to water, bacteria, mold and mildew and requires no sealants—unlike natural stone and grout.

Creme Travertine Vanilla Travertine Mocha Travertine

Abalone Travertine Oro Travertine Sahara Travertine

Botticino Cream Calcutta Gold Calabria
